Gender: Male **Date of birth**: 05/01/1997 **Place of birth**: Khenifra, Morocco **Nationality**: Moroccan

ABOUT ME

Bioinformatician specializing in organelle and nuclear genome assembly, annotation, and high-throughput sequencing analysis (DNA-seq and RNA-seq). Experienced in developing reproducible Python pipelines and performing comparative, evolutionary, and functional genomics, including RNA editing analysis in plant organellar genomes.

EDUCATION AND TRAINING

- [01/10/2023 – 01/12/2025] **Master's in Plant Biology and Biotechnology**
Polydisciplinaire Faculty - University Mohammed First fpm.ump.ma
City: Nador | **Country**: Morocco |
- [01/11/2016 – 01/06/2022] **Bachelor's in Life Sciences (Cellular and Molecular Biology)**
Faculty of Sciences - Moulay Ismail University www.fs-umi.ac.ma
City: Meknes | **Country**: Morocco |
- [01/09/2015 – 01/07/2016] **Baccalaureate in life and earth sciences**
Fatima Zahra high school
City: Khenifra | **Country**: Morocco |

WORK EXPERIENCE

- IRFC – Royal Institute for Management Training*
City: Rabat | **Country**: Morocco
- [01/03/2025 – 01/09/2025] **Master's Research Internship**
Performed end-to-end assembly and annotation of plastid, mitochondrial, and nuclear genomes of *Artemisia* species using high-throughput sequencing data. Designed and implemented reproducible bioinformatics pipelines for RNA editing detection, codon usage bias analysis, comparative genomics, and Ka/Ks estimation. Conducted phylogenetic and statistical analyses to characterize evolutionary dynamics and functional constraints across genomes.
DATI-Prima
Country: Morocco
- [01/12/2023 – 01/01/2024] **Survey enumerator**
Farmer survey on the application of irrigation management techniques within the framework of the international project "Digital Agriculture for Irrigation Efficiency"

SKILLS

Bioinformatics | genomics | Python | Machine Learning | Penetration Testing | Arcgis
| Linux | Web Application Security | RNA-seq analysis

CERTIFICATIONS

[University of Granada ·
abiertaUGR, 2026]

MOOC Machine Learning and Big Data for Bioinformatics

[Cisco Networking Academy,
2024]

Ethical Hacker

[Tryhackme, 2023]

Offensive Pentesting

[Tryhackme, 2022]

Jr Penetration Tester

[Alison, 2022]

Biotechnology - Cell Biology Techniques

[Google, 2020]

Fundamentals of digital marketing

[Udacity, 2018]

Data Analysis Track

[Open classrooms, 2017]

Diplome C Sharp, HTMLS, CSS3

[CYBRARY, 2017]

Advanced Penetration testing
